

Wilson Run Stream Restoration Project

Improving the water quality, habitat, and scenic beauty of the Wilson Run, a tributary of the Valley Creek.

Volunteer Planting Day
Heyward Road, Chesterbrook, PA
Saturday, May 25, 2019 @ 9AM

The Chesterbrook Trust, Valley Forge Trout Unlimited, and Gilmore & Associates, Inc., invite you to celebrate a new project to restore the Valley Creek. The Wilson Run Stream Restoration Project will address serious flooding issues, replace outdated stormwater infrastructure, improve the quality of the Wilson Run, a tributary of the Valley Creek, an Exceptional Value stream, and provide nature viewing for children of all ages. Together we'll put the finishing touches on this project, install the remaining streamside plants, enjoy good food and hear about the project and the watershed.
